**FOR IMMEDIATE RELEASE:**

**Notice of Fuels Reduction - Magalia Restoration Project**

June 3, 2026 - Funded by the Sierra Nevada Conservancy, this project partners with the Paradise Recreation and Park District (PRPD) to reduce hazardous fuels, restore local watersheds, and strengthen the community's understanding of Good Fire.

The project will take place across two sites: Coutolenc Park located in Magalia, CA and Oak Creek Park located in Paradise, CA. At Coutolenc Park, treatments include a mosaic of mastication high blading, hand cutting, pile burning, and broadcast burning. At Oak Creek Park, treatments include a combination of grazing, mastication high blading, hand cutting, pile burning, and broadcast burning. The overall objective of this project is to protect and encourage the growth of young Ponderosa pine and Black oak saplings and create a safe environment for public access after the 2018 Camp Fire significantly burned through this region. The approach helps create healthy forest conditions and improved recreational experiences. Fuels reduction treatments is scheduled to begin June 2026 with the anticipation of burning in fall 2026.

The Butte County Fire Safe Council is a grassroots non-profit organization that implements a variety of fuels reduction and forest health projects in operation around Butte County including Forbestown, Berry Creek, Forest Ranch, Cohasset, Paradise, Big Chico Creek Canyon, and Oroville Foothills. More information can be found on BCFSC's website <https://buttefiresafe.net>, Facebook or by calling our office at (530) 877-0984.

*Funding for this project has been provided by the Sierra Nevada Conservancy, an agency of the State of California, through the California Budget Act of 2021 (Section 77), Wildfire Recovery and Forest Resilience.*
